

032.0/ Beauvallon Spa

Client: Parkview International
 Date: April 2009
 Status: Outline Proposal
 Value: £1.2m

01 Description

The project which is located next to the luxury resort complex was designed as a Natural Eco Spa. The building comprises series of spaces.

Each space offers special spa treatment and therefore requires individual environmental conditions. This is ensured by the performative roof and facade that react on those requirements.
